

# THE EDGE

## Your handy step-by-step guide to...

### ***The Macarena!***

Here at Edge HQ, we party, party, party all night long. And if you're a salsa-crazed mosh monkey like us, you mastered the Macarena months ago, back when it was, uh..... *current*.

But hey, it's never too late to learn! So clip 'n' save this handy guide to the hottest dance craze since the Funky Chicken:

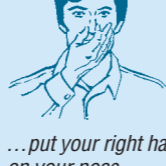

### ***The Macarena!***

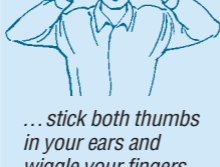

*First, put your right arm out...*

*...then put your left arm out...*

*...put your right hand on your nose...*

*...stick both thumbs in your ears and wiggle your fingers...*

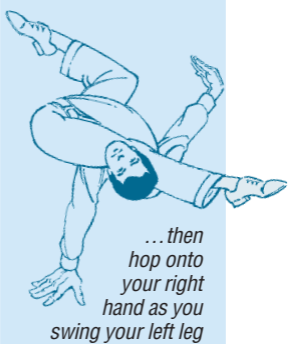

*...give your head a clockwise twist...*

*...bend backward 'til your head hits the floor...*

*...swing your head forward while you grab your knees...*

*...then hop onto your right hand as you swing your left leg behind your head and point your right foot. Got it? Now repeat from the top!*
